

Bandit Lab Report

COMP 141: Introduction to Computing — Monmouth College

Name: _____ Date: _____ Bandit Problem #: _____

1. Commands Used to Find the Password

Show the exact shell command(s), options, and pipeline(s) you executed to locate and retrieve the password for this level.

2. Solution Description

Describe in your own words how you solved this level. Walk through the steps taken from initial login to finding the password and explain why your approach works.

3. Crux of the Level

Describe and discuss what you saw as the crux of this level—the core concept, obstacle, or essential insight required to solve it (e.g., unusual filenames, hidden files, data formats, permissions, redirection).
